

SCISWeb Free Trial

Discover the ease of cataloguing

SCISWeb – free trial

This free trial will give library staff the opportunity to preview the SCISWeb product over five consecutive days. As part of this trial, you may download up to 20 catalogue records to import into your library system.

You may also view catalogue records on the SCIS database by performing one of the many search options in SCIS OPAC. This opportunity will enable you to experience the time saving capacity of downloading catalogue records rather than doing original cataloguing.

Please fill in your details

School name: _____

Address: _____
